P. N. MOORE TO ADDRESS STUDENTS.

Former President of A. I. M. & M. E. Coming Under Auspices of Mo. Mining and Met. Association.

Phillip N. Moore, prominent consulting engineer of St. Louis, will be in Rolla Thursday and Friday, January 8th and 9th. He will meet with the Committee on Engineering Education Thursday night, and will address the students at mass meeting Friday. Mr. Moore was president of the A. I. M. & M. E. in 1917. He graduated from Miami University in 1870, and from Columbia in 1872. Since then he has been very active with various state geological surveys and as a mining executive. Since 1910 he has been a member of the board of the Bureau of Geology and Mines of Missouri. He was a member of the War Minerals Commission of the United States Department of the Interior from 1919 to 1921, and has been a member of the Executive Board of the Federation of American Engineering Societies since 1920.

The students are fortunate to have as prominent an engineer as Mr. Moore as their guest, and should endeavor to have a large attendance at mass meeting Friday.

MINERS ATTEND

M. U.-U. S. C. GAME.

Alumni Plan to Hold Banquet Soon.

Los Angeles, Calif., Dec. 27, 1924. Professor George R. Dean, Sec., Missouri School of Mines Alumni Association, Rolla, Missouri.

Dear Prof.:

The football game between the University of Missouri and the University of Southern California on Christmas day has been the cause of more of the alumni of the school getting together in Los Angeles than ever before. I thought you would be interested to hear of the different men.

The week prior to the game the University of Missouri held a get-together luncheon at the "Bull Pen Inn," at which plans were made to entertain the team. The M. S. M. men present were welcomed at the meeting, for after all we are a

Continued on Page Two.

DYNAMITERS TO GIVE A DANCE JANUARY 17.

The Dynamiters, the newly organized "Pep" Club, will throw a big dance in Jackling Gym Saturday, January 17, at the usual price of one buck.

This gala affair promises to be one of the big events on the social calendar, so grab a date now, as dates will be scarce when the time of the struggle rolls around. The Varsity orchestra has picked up a lot of new pieces over the holidays, and are rarin' to go. If your miss this dance you funk your social lab.

— M S M —
BARNWELL-ALLEN.

Miss Lillian Allen and Prof. Geo. F. Barnwell were united in marriage Thursday morning, December 18, at the home of the bride's brother in Wood River, Ill.

The bride is a daughter of Mrs. Cora Allen, of Rolla, and has lived here most of her life. For several years she has been employed as a bookkeeper at Spilman's. She is an active worker in the B. Y. P. U. and other organizations of the Rolla Baptist church and is an accomplished musician. She is also a member of Rolla Chapter of Eastern Star, serving last year as Worthy Matron.

Mr. Barnwell is professor of Mineralogy in the Geology department of the School of Mines, having come to Rolla three years ago from Vancouver, B. C. Though teaching subjects unpopular to many students, "Barney" is well liked for the attitude he takes as being fair and square to all those who will make an attempt to meet him half way.

Immediately after the wedding breakfast at Wood River, Mr. and Mrs. Barnwell left for Chicago, where they remained during the holidays. They are now at home to their friends in the McCaw apartments.

The Miner extends for the faculty and student body of M. S. M. its heartiest congratulations.

NOTICES.

Seniors desiring to make substitutions are asked to notify the Student Advisor before January 23rd.

The schedules for the spring semester are here, and may be obtained at the office of the Student Advisor.

BONANZAS WIN BASKETBALL CHAMPIONSHIP.

In the final game of the intramural basketball championship series the Bonanzas vanquished the Lambda Chis by the close score of 16 to 15. The game was as hard fought as the score indicates.

McClelland who scintillated for the victors, opened up the scoring with a two-pointer from a difficult angle. From then on the Bonanzas held the lead and were never headed although at times the winners held only a one-point lead. McBride shone for the Lambda Chis, scoring three baskets in the first half, two of which were long shots from the side. The first half ended with the Bonanzas leading by a 10 to 7 score.

The Lambda Chis came back strong in the second half but were unable to overcome the advantage of the winners. With two minutes to play, the score stood 16 to 12 in the Bonanzas favor and the Lambda Chis by virtue of a foul and a two-pointer by Stolte crept up to within one point of the victors, but the final whistle saw the Bonanzas clinch the pennant by 16 to 15 score.

McClelland and Agra performed best for the winners, while McBride and Stolte shone for the Lambda Chis.

In the games to decide the teams to meet in the finals the Independents vanquished the Grubstakers 27 to 18 and the pennant-winning Bonanzas conquered the Prospectors 33 to 5. In the semi-finals the Bonanzas scored a 24 to 11 win over the Independents.

Line-up of the final game:

Bonanza	Lambda Chi Alpha
McClelland (10).....lf.....	Stolte (6)
Murphy (2).....rf.....	Thomas (2)
Kenrich (2).....c.....	Burg (1)
Agra (2).....rg.....	McBride (6)
Ashlock.....lg.....	Hunt

Substitutions: McCauley for Ashlock.

PROF. JOHNSON RETURNS.

Prof. E. L. Johnson, who is taking a post graduate course at Columbia University, New York, with a view to getting his Doctor's degree, spent the holidays with his family in Rolla.

MINERS ATTEND

M. U.-U. S. C. GAME.

Continued from Page One.

part of the University of Missouri. Plans were made for a Missouri Rooting Section at the game, and an alumni banquet to be held at the University Club on Tuesday evening, December 23rd, at which the team would be present. The M. S. M. men and others from Rolla present at the luncheon were H. F. Valentine, Mrs. E. H. Broughton and daughter (who represented 'Gene Broughton), Miss Fort and myself.

Tuesday evening, December 23rd, a very peppy and enthusiastic dinner was held in honor of the team at the University Club. After all were seated, the team marched in in single file, and were received with yells and cheers. The M. U. cheer leader from Columbia was present, and helped to bring back to the waning memories of the alumni some of the old yells. The team was introduced man by man to the assembled diners, and they all looked good to us. Speeches were made by Mr. Albright, president of the Missouri Alumni Association in Southern California, Bob Hill, "Prexy" Jones, Athletic Director Brewer, and Coach Gwynn Henry.

The M. S. M. alumni had a table together, at which were present L. S. Cueplin, Paul E. Coaske, R. L. Massey (guard on the famous 1914 team), Mrs. Lynton and myself. After the speeches moving pictures of the Missouri-Kansas game were shown and from the way the Missouri team played we knew that they would make things interesting for the U. S. C. bunch.

After the dinner in conversation with Assistant Coach Harry Kipke, we were informed that Missouri were going to play M. S. M. the second game next year. We are all glad to hear of the resumption of football relations between M. S. M. and M. U.

Now for the game—it was a peach and no Missourians out here on the coast need be ashamed of the M. U. team. The breaks were against us as for example Van Dynes' fumble of the punt he blocked and field goal that went wide by a hair's breadth—all in the first half which was all Missouri's. In the second half, U. S. C. made three touchdowns in the third quarter, but they had a fresh back field and two new ends and our boys were plainly tiring. Only one of these touchdowns was through the line and earned. The other two were the results of two long forward passes

for 50 and 53 yards respectively!! In the last quarter, Missouri took a brace and worked the ball twice to the U. S. C. goal line only to lose it on incompleated forward passes. However, in the last 10 seconds of play, U. S. C. with the ball in their possession on their own 20 yard line fumbled, and Walsh, the M. U. left end, picked it up and ran for a touchdown. This made everyone feel better.

The M. S. M. men who sat together and yelled themselves hoarse in the rooters' section were, S. E. Hollister, Paul Coaske, Paul Lindau, A. W. Gleason, Mr. and Mrs. E. H. Broughton, L. S. Copelin, H. F. Valentine, K. M. Bowman and myself.

We all had such a good time at this game that the M. S. M. alumni decided to get together towards the later part of January and have a banquet. We feel sure it will be a success and hope we can stage them about twice a year. Why don't you try and attend? We'll get Hollister and Coaske to show you the high spots in the city.

Excuse this long rambling letter but I thought you'd be interested. Maybe the Missouri Miner could use some of it in their next publication.

With kindest regards and the season's greetings to yourself, family and school, I am,

Yours sincerely,
TEDDY LYNTON, '12.

THE FRESHMAN SMOKER.

A committee of Freshmen has been working and have the plans for the Freshman Smoker well under way. The exact nature of the entertainment has not been disclosed, but it is a certainty that it will be along different lines from those of last year.

However, lamentable as that fact may or may not be, the Freshman class is working hard to put across a good smoker and it is hoped that it will be well supported. No definite date has been set, but January 16 will probably be the date selected.

— M S M —

Man—"You're an honest boy, but the money I lost was a ten-dollar note."

Boy—"Yes, I know; I had it changed so you could give me a reward."

ROGER DAY MARRIED.

R. O. Day was married to Miss Cecile Migliario, of Salina, Kansas, on December 31st, in Kansas City.

The bride is well known in Rolla, as she has attended the last two St. Pat celebrations.

The Miner extends its congratulations, along with those of their many friends.

— M S M —

A Co-Ed Convenience.

"You ought to be proud to be the father of such a splendid family," said the head mistress to her visitor.

"What on earth—? Large family?" gasped the visitor.

"Yes, indeed. Your daughter has had eleven of her brothers here this term to take her out. She expects another tomorrow."

Take Your Choice.

An Irishman who was rather too fond of anti-Volstead drinks was asked by the parish priest:

"My son, how do you expect to get into Heaven?"

The Irishman replied:

"Shure, and that's aisy! When I get to the gates of Heaven I'll open the door and shut the door, and open the door and shut the door, an' keep on doing that until St. Peter gets im-

patient and says, 'For goodness' sake, Mike, either come in or stay out!'"

Fair But Stormy.

A physics Prof was angling down the icy street one day last week when he was accosted by a friend with the words: "Well, Prof, what do you think of the weather?"

"O, horribble—" was the reply.

"And how is your wife today?"

"She's just about the same, thank you!"

Musically Speaking.

"I started reading Les Miserables last night," said the first Co-Ed. "It's very interesting."

"Isn't it," gushed the second C. E. "I think it's Victor Herbert's masterpiece."

A Recommendation.

A freshman a few weeks ago took his first check to the bank. The cashier asked him to endorse it, so he took up a pen and wrote on the back "I heartily endorse this check."

ST. PAT'S.

Now that the holidays are over and the gang has returned from the old home town and settled down to the steady grind, it is meet that at this time, some pleasant thought be presented to dissipate any gloomy thoughts which may accompany the opening of the institution doors.

St. Pats is due to roll around sometime in the neighborhood of March 17th. St. Pats has become a tradition at the School of Mines. There is probably no other school in the country which puts more effort into making St. Pats the great event of the year than does the Missouri School of Mines. The approximate cost of the St. Pats festival last year was twenty-five hundred dollars. That seems like a vast sum to be spent on frivolous affairs. But in reality the money is well spent. The amount is raised a little at a time and it works a financial hardship on no one. In the matter of advertising the school it is very effective. The

guests who are in Rolla at that time take away with them the thoughts that this is a real place and there is no doubt but that those people convince others of that fact.

Then again, the memories of the students after graduation most generally center about some one of the St. Pat's fetes. Look at the number of former grads who make every effort to get back here for the St. Pats celebration. There is probably not a one of the hundreds of graduates who does not think of the old school when March 17 rolls around. And say, how about establishing this St. Pat's as a regular home coming affair for the whole gang. That would be real. How does it sound anyway? There is a world of people who could and would come. Its worth thinking about. What do you say Juniors, do you want to promote this?

— M S M —

MISS SCOTT ARRIVES.

A little daughter who will answer to the name of Anne Estelle was born to Mr. and Mrs. J. Walter Scott in Chicago on Dec. 30, 1924. Mr. Scott graduated from M. S. M. in 1919, and Mrs. Scott was also a former student of M. S. M.

The Miner joins their many friends in extending congratulations.

— M S M —

**WHERE THE MINERS
SPENT THE HOLIDAYS.**

Mr. and Mrs. Benj. B. Bondurant visited relatives in St. Louis during the holidays.

J. P. Bryan and wife, of Springfield, Ill., are visiting with Mrs. Bryan's mother, Mrs. E. W. Behner, in Rolla.

Mr. and Mrs. George C. Willson and sister, Miss Zoe Harris, of St. Louis, spent the holidays with their parents, Prof. and Mrs. E. G. Harris.

H. G. S. Anderson arrived from Miami, Okla., to spend the holidays with his wife and children in Rolla.

Miss Rowena Corey, student at the Transylvania College, Lexington, Ky., spent the Christmas holidays with her parents, Mr. and Mrs. W. A. Corey. Miss Corey attended M. S. M. in 1921.

Miss Pharis Cleino spent the holidays with her parents, Mr. and Mrs. Henry Cleino, in St. Louis.

Mrs. J. D. Behnke spent Christmas with her sister, Mrs. O. E. Mitchell and family at St. Claire, Mo.

Mr. and Mrs. J. R. Weakley, of Festus, Mo., were the holiday guests of Mrs. Weakley's parents, Prof. and

Mrs. R. F. Ratliff.

Raymond and James Orr spent their vacation in Webb City.

Miss Mary Elizabeth Campbell and her mother, spent Christmas with Mrs. Campbell's mother, Mrs. J. L. Murphy, of St. Louis.

Pinky Zeller, '23, former business manager of The Miner, now a Lieutenant in the Field Artillery and stationed at Fort Benj. Harrison, Ind., was in Rolla, December 29, paying the old school a visit. Pinky as usual was very modest and quiet.

Merten Signer, '22, former basketball captain, now with the Illinois Highway Commission, visited friends in Rolla.

W. E. H. "Bill" Knight, '24, with the Aluminum Ore Company East St. Louis, was another of our social callers over the holidays.

Miss Helen Lloyd, of Vincennes, Ind., spent the Christmas holidays with her brother, Prof. Sam Lloyd and family.

Prof. and Mrs. C. E. Bardsley and daughters spent the holidays with Prof. Bardsley's mother in St. Louis.

Mr. and Mrs. F. E. Taylor spent the Christmas holidays with their son, Huston Taylor and wife at Keokuk, Iowa.

Harry Milstead, ex-41, who is employed as topographical engineer by the Government, stopped over in Rolla for a few days on his way from Utah to St. Louis.

BIG, STRONG, SERVICEABLE

FACTORY PLUMBING CAN CONTRIBUTE TO EFFICIENCY

Supplying dependable valves, fittings and steam specialties that exactly satisfy all piping requirements is only one of the ways Crane Co. serves American industry. Crane provides another important means of lowering manufacturing costs in its complete line of factory plumbing fixtures.

In many ways this sanitary equipment can be used to bring up efficiency. Toilet rooms and lavatories of ample capacity, placed close to the "population centers" of the departments they serve, save many wasted minutes. Enough drinking fountains, convenient to machines and benches, increase production by shortening the time taken

off by workmen in quenching their thirst. Because Crane plumbing materials stand up under ordinary, careless usage, they perpetuate these savings of time. Their upkeep cost is low, their life much longer than could be expected of fixtures made to sell on price alone.

When you plan plumbing installations, a Crane specialist at the nearest Crane Branch or Sales Office will be glad to help you select the correct type of fixture for each particular requirement. One hundred two Crane branches and offices bring this service within easy reach of every industrial plant in the United States and Canada.

Mrs. Smith—"Then the wedding was not altogether a success?"

Mrs. Smyth—"No; the groom's mother cried louder than the bride's mother. It was considered very bad form."

A Touch of Lavender.

During his visit to a girl's school the diocesan inspector put this question to a class of the younger girls:

"If all the good people were white and all the bad people were black, what color would you be?"

Some answered "White" and others "Black". But Mary meekly replied: "Please, sir, I would be streaky!"

"Where's your room-mate?"

"Well, if the ice is as thick as he thinks it is, he is skating, If it's as thin as I think it is, he's swimming."

An Englishman unfamiliar with the American negro, and a guest in a southern home, showed much interest in the dark-skinned race.

"Do all of your Negroes speak English?" he asked on the first day of his visit.

"Oh, no," was the prompt reply of his host who enjoyed a little joke, "they speak their own language. Come along with me and listen."

Approaching an aged negro he inquired:

"Wha' hee?"

"Wha' hoo?" asked the negro.

"Wha' boss?" replied the employer.

"Ober dah," was the final response

"How extraordinary," commented the visitor.

LUCK IS PERSEVERANCE IN DISGUISE.

The man who possesses a snug bank account is considered lucky, but nine times out of ten it is the result of perseverance.

If you would be lucky also, come to this bank and open an account today. then — persevere, work save, and in a short time your luck will take the form of a cozy Bank account.

ROLLA STATE BANK
ROLLA, MISSOURI

Across Another Man's Desk

Those looking forward to careers in business often associate the big accomplishments with men in private offices, who sit back of massive desks. As a matter of fact, there are many important men in an organization like Westinghouse who seldom use a desk or office at all. They achieve by *going to other men's offices*. They are termed "sales engineers".

George Westinghouse, for example, rendered his greatest service to industry and mankind not merely by perfecting alternating current but by *selling* it—in the face of the stiffest kind of opposition.

Authorities declared it was impractical; laws were urged against it; yet the salesman, Westinghouse, threw back of alternating current, the strength of his selling personality—with results that can

be witnessed in every branch of industrial life today.

Following the example of its Founder, the Westinghouse organization includes a body of engineers whose work is to carry electrical advancement into every nook and corner of the world. They have sold electrification to the factories, the farms, the homes, the railroads, the mines, the ships. They are mechanical and electrical, engineers whose imaginations are fired, not merely by engineering achievement, but by the benefits from such achievement to "the market".

Engineering needs men of sales ability and sales personality; and industry needs to have them in engineering. Organizations like Westinghouse, must *sell* before they can *serve*.

Westinghouse

ACHIEVEMENT & OPPORTUNITY

SHAKESPEARE A LA MODE.

Although being a Freshman I feel I am already well educated in all English subjects. Take my experience on New Years Day, e. g. I picked up a Complete Works of Wm. Shakespeare in 1 Vol. Unabridged, and before night had take place had already learnt all anybody learns in a total semester of Shakespeare in any c. k. up-to-date college, M. S. M., e. g. So why waste all your time studying something you can learn in 1 day!?

The stories in the book that I liked best was the wintre's tale of the mid-summer knights who dremt of 2 gents from Verona, Calif., on the 12th night in Venice, Calif. 1st, when the act opens in seen V, a love-sick boy named Rollamo looked up at a pretty gal on top of the front porch and said, "I wish I was her mitten so I could slap her cheek." And then comes in Skylark, and he says, "Whoever steals my pocketbook steals nothing." Next comes Julius Squeezer and says, "Et tu brutes." Then he was full.

But King O'Leary says, "Gimme a Ham-om-let."

"I'll take the same," says Patrick Henry the 8th.

Then they all 8 their fill, but Skylark. He lost his pocketbook; so he orders 1 lb. of flesh nearest the heart. And Portia wouldn't eat honey on her bread cause it was strained. She said that the quality of honey was not strained; so she dropped it on the floor beneath—the table. And when Antonio Moreno turned over his glass of water, he said, "Excuse, please. It never pours but it rains."

—M S M—

Caller—"So the angels have brought you a new baby sister."

Jim (disgustedly)—"To see the fuss Sis makes over her you'd think she came from Paris."

Frosh—"Say, Prof, how long could I live without brains?"

Prof. "That remains to be seen."

CONGRATULATIONS

The Miner is in receipt of an announcement from S. M. Hayes, '20, telling of the arrival on December 22 of baby Alice Marie. Mrs. Hayes before her marriage was Miss Harrison, assistant librarian, and one of Rolla's most popular girls. Sam was equally as popular among the student body. The Miner joins with its many friends in extending congratulations.

—M S M—

Little Boy—"Look, ma, the circus has come to town; there's one of the clowns."

Ma—"Hush, darling. That's not a clown. That's just a college man."

"Guess my girl in college has changed her mind about basketball. She is evidently going in for something more useful."

"How so?"

"Now she writes that she has made the scrub team."

MONTIE LUM, JUNIOR.

Montie E. Lum, co-ordinator of the U. S. Veterans' Bureau at M. S. M., arrived home from Lincoln, Nebr., Saturday morning, December 26, from a vacation of several weeks spent in Lincoln and other Nebraska points. The next day after his arrival in Rolla Montie received a telegram announcing the arrival in Lincoln of a ten pound son, Montie, Junior. The Miner extends congratulations to the proud parents.

BASH-DALTON MARRIAGE ANNOUNCED.

Cards have been received announcing the marriage of Mr. David Bash, formerly of this city and son of Mrs. Josephine Bash, of South Fifth street, to Miss Natalie Dalton, of Okmulgee, Okla. The ceremony was solemnized in Hominy, Okla., on Christmas Day at four o'clock in the afternoon, at the home of the bride's sister, Mrs. Wilbur Jarvis, with Rev. Everett Simpson, pastor of the Southern Baptist church officiating.

Mr. Bash is a graduate of the Missouri School of Mines at Rolla and is a member of the Sigma Nu Fraternity. He is employed as chemical en-

gineer with the Empire Gas and Fuel Company at Eldorado, Kansas. Mrs. Bash is a graduate of Okmulgee high school and also of Okmulgee business college. After a short honeymoon spent in Oklahoma, the couple will be at home in their apartments, 416 Denver avenue, Eldorado, Kansas.—Hannibal Courier-Post.

Prof. Barnwell (to persistent reporter)—"Our romance consisted of two scenes. I seen her and she seen me."

Half the excitement of being in love is trying to make the other person confess it while you assume a careless indifference.
